Luis by OLI13

POSTED ON SEPTEMBER 30TH, 2013 BY LEO LEI

Name: Luis

Designer: OLI13

Location: Unknown

Year: 2013

Luis is a minimalist design created by designer OLI13. It all started while the designer was playing cars with his son: a track with a car park, the workshop, town houses, the airport. A painting on our wall. A German friend. One of our favorite pieces. They rotated Luis from the horizontal to the vertical and the organizer appeared. The design consists of various geometries that compose a structured organizational hub for magazines, peripherals, and accessories.
